

## LED GAS STATION LIGHT

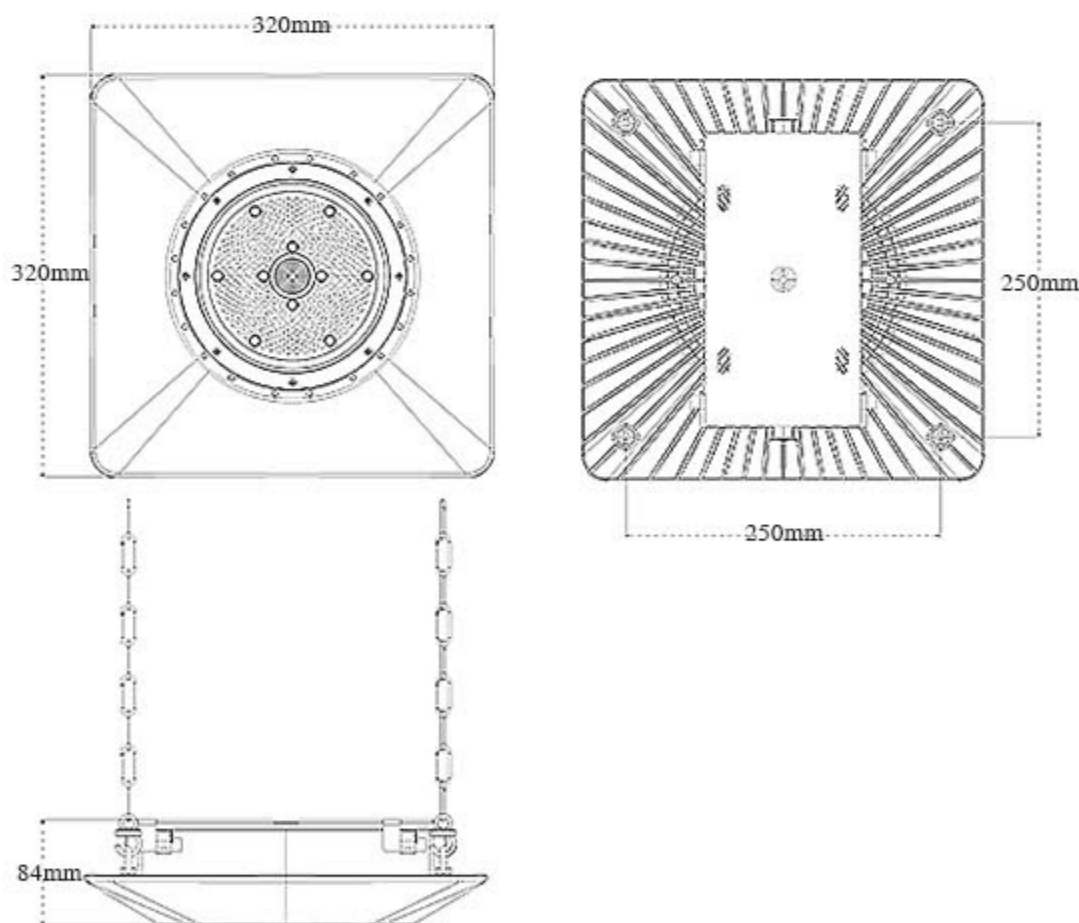

Led gas station Light Forward-looking design, beautiful appearance, ultra-thin lamp body, greatly improved operability and more flexible application. Thickening aluminum for heat dissipation to ensure lamp service life. Imported chips, with PC lens, have higher brightness and higher light efficiency. Provide a variety of installation methods to meet various use requirements. Widely used in gas stations, tunnels, airports, parking lots, toll booths, indoor garages and so on.

## PRODUCT ELECTRONIC PARAMETERS

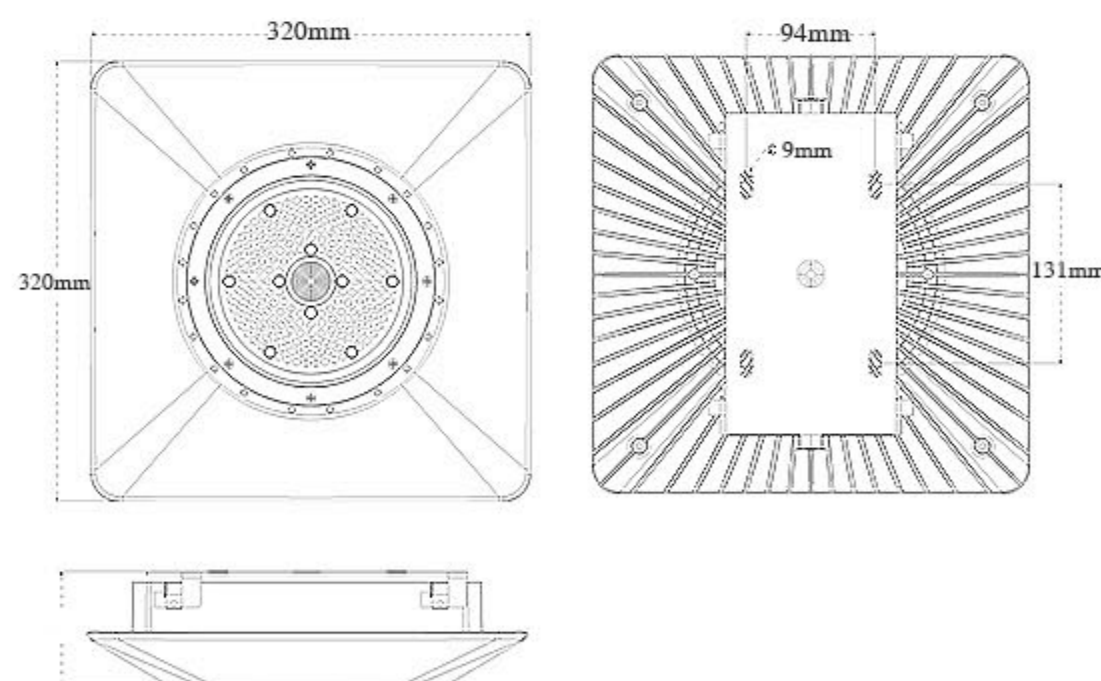

Power	100W、120W、150W
LED Quantity	210
Luminaire efficacy	150lm/w
Chip model	3030
Chip brand	Philips/Osram/Cree
Input voltage	AC90-305V
Driver brand	Meanwell and Inventronics
Beam angle	45°、90°、120°
Color temperature	3000-6500K
PFC	≥0.9
CRI	≥70
Protection level	IP65
Operating temperature	-30℃ ~+60℃
Lamp body material	Aluminum and PC
Warranty	5 years

## PRODUCT INSTALLATION

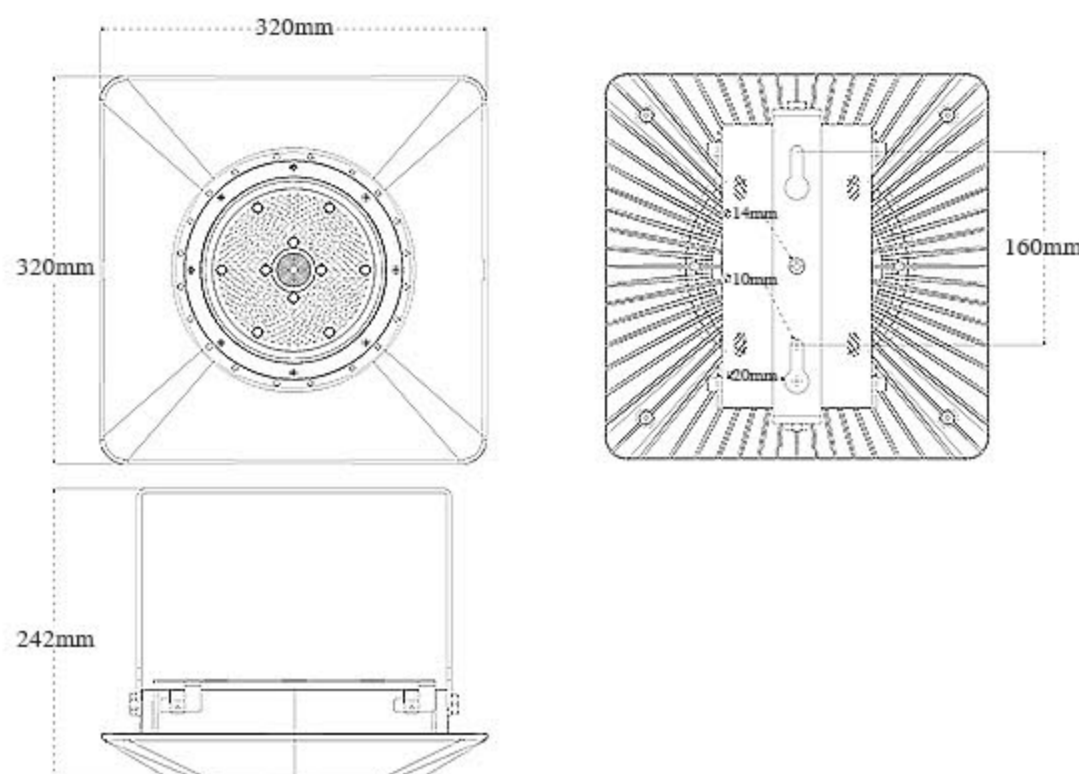

### Hoisting

### Ceiling

### Bracket mounting
